| <b>SECTION &amp; PARAGRAPH</b>                     | <b>COMMENT</b>   |
|--|--|
| <b>Critical studies included?</b>                  | <b>All critical studies have been presented and evaluated. The committee is commended for their thorough and systematic evaluation and elimination of studies which had significant limitations.</b> |
| <b>Detail of critical studies adequate?</b>        | <b>Yes, sufficient detail was provided to support conclusions.</b>   |
| <b>Concise presentation of information?</b>        | <b>The information was presented in a concise manner with sufficient detail concerning the multiple studies described.</b>   |
| <b>Limitations of critical studies?</b>            | <b>The studies used for calculations had no limitations.</b>   |
| <b>Alternative interpretations of assessments?</b> | <b>No, the data presented and used in the calculations supported the conclusions of the cancer risks.</b>  |
